Ken & Terri Burnett

Kenny started his love of riding with a Honda 90cc that his grandfather purchased for him the summer he was 11. Kenny spent a lot of summers with his grandfather.

He moved up to a Honda 400cc at the age of 17, this was the first motorcycle I had the joy of being given a ride on (my Dad was not happy about this), but by this time he had given up trying to keep us apart. You see, I was dating a friend of Kenny's when I was 14 and he was 15. Kenny wrote me a love letter and I was in love from that letter forward. We were

inseparable for a few years, and then we both went our own way for awhile.

At the ages of 21 and 22, we decided to get out of Houston and moved to Round Rock together. We married a year and a half later in 1986. Today is our 22nd anniversary!

In 1988 we bought our first house and we were so broke we sold our Honda 750 to buy Christmas presents for the kids. Kenny said the next bike he bought would be a Goldwing. At the time I didn't know what a wing was, but it was definitely worth the wait. And wait we did-14 years until we bought our 1987 (1200) Aspencade. This was our first E-Bay purchase. Kenny had given up on winning and went to bed. I upped the bid \$50 and won. Up early the next morning, we drove to Canton to drive FireFly home.

We attended our first rally in South Padre in 2003 and were hooked. We joined GWRRA and started attending meetings. We have met a lot of new friends in GWRRA and although we can't make a lot of the rides because of that dirty little four letter word **WORK**, we have a favorite which is Coyote Ranch so far. I'm sure in the years to come there will be many more.
